

# Donation Request Form

Thompson's Custom Meats and Processing proudly supports many local programs and worthwhile charitable causes. We want to support as many as we possibly can; regretfully, due to the ever-growing number of requests we receive monthly we are unable to accommodate them all. Here are some guidelines to follow for your organization to be considered for a donation. Donations may be monetary or other.

- All donation requests must be submitted with the Donation Request Form. Form may be mailed in or emailed to info@thompsonmeat.com.  
**Phone requests will not be considered.**
- Form must be filled out completely to be considered.
- Your organization must not have received a donation from Thompson's Custom Meats and Processing during the current calendar year. An organization is eligible to receive only one donation per year.
- Your request for donation must be submitted and received prior to the day your organization needs the donation.

To fairly distribute to as many worthy causes as possible there will be no exceptions to the above guidelines. Please keep in mind that submission of a request does not guarantee a donation. Thompson's Custom Meats and Processing is proud to be considered for contribution to your event or program. We wish you the best with your charitable and fundraising efforts.
